## **Addendum for “Evaluation of 21<sup>st</sup> Century Community Learning Centers: A Guide for State Education Agencies”**

The Department of Education (DOE) is currently reviewing its 21<sup>st</sup> Century Community Learning Center reporting requirements and will most likely reduce the number of required indicators to one—indicator 1.1 which relates to academic achievement. While states are encouraged to report information on the full set of indicators (see page 2), it is unlikely that they will be required to report on the subset suggested in the Guide. Please check our website for the DOE’s final decision on indicator reporting requirements: [www.hfrp.org](http://www.hfrp.org).
